

# Pioneer

## Pedaling Monitor Power Meter

# Knowledge. Efficiency. Power.

## Your Most Powerful Weapon

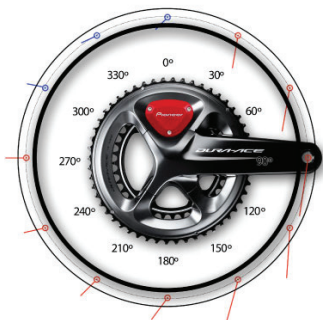

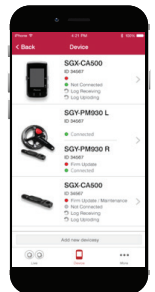

Pioneer's SBT Series of Power Meters are an essential tool for any serious cyclist. Know more about your power training than ever before with the first and only power meter that identifies pedaling imbalance, power output and power loss, for improved technique and efficiency in real time. Pioneer delivers the most advanced dual leg power meter system on the market, going beyond the standard ANT+® power metrics with force detection in all directions. You can now measure and manage more on-the-fly with riding pace, training loads, work and cadence all at your fingertips.

## SBT Series Provides Superior Wireless Connectivity

- Connects to your smartphone, smart trainer or training app quickly and easily with ANT+ or Bluetooth BLE.
- Installation, set-up and management are a breeze with Pioneer's Control App. Calibrate, update firmware, check connection status, mode switch and easily upload ride data to your favorite tracking app.
- iPhone® and Android® smartphone compatible.

Control

## Unrivalled Power Measurement

- Pioneer's Dual Leg Power Meter measures left and right legs independently to uncover pedaling imbalance.
- Only Pioneer provides Pedaling Monitor power metrics to measure force precisely in all directions, every 30 degrees, 24 times per rotation.
- Graphically displayed force and torque vectors are shown in real time on the Pioneer Cycle Computer to identify strengths and weaknesses in form and function.
- Make immediate adjustments to your pedal stroke and get better, faster.

## Advanced Integration

- Pioneer's exclusive Power Meter Pedaling Monitor technology and metrics, can be seen real-time on Pioneer, Wahoo ELEMNT and ELEMNT BOLT cycle computers.
- The force vector graph displays power utilization and loss for each pedal stroke, so you always know your exact output.

# Dependable Durability

- Pioneer understands training challenges, so its power meters are built to the performance standards of the world's toughest users - professional cycling teams and triathletes.
- The only power meter of its kind designed for an IP66 and IP68 Water and Dust rating.
- Dependable and durable but lightweight design, with superior battery life.
- Covered by a two-year Limited Warranty when purchased from an authorised Pioneer dealer.

## Know More with Cyclo-Sphere Analysis

- Pioneer's Cyclo-Sphere PC tool gives you more post-ride analytics than ever before.
- View 199 performance metrics illustrated in detail using graphs, charts and maps.
- Install our complimentary Cyclo-Sphere Analysis app for iPhone and Android and get immediate analysis on the go.
- Auto forward ride data to Strava and Training Peaks.

### PREINSTALLED DUAL LEG

	SHIMANO	
	DURA-ACE R9100	ULTEGRA R8000
